First Home Run of Series Knocked In 14 Inning Game

H. Myers Does the Trick for Brooklyn in the First Inning; Nobody on Bases And So It Counts for But One Run

BOSTON WINS IN FOURTEENTH, 2 TO 1

Boston, Oct. 9.—Fears gave way to hope this morning when after an all night rain the sun appeared in the east, and the weather is expected to clear up for the afternoon game between the Red Sox and the Dodgers.

The second game of the world series opened up at Boston this afternoon with fair weather and betting 10 to 4 on the Red Sox on the series and 5 to 3 on today's game.

A little rain fell between one and two o'clock which deferred the fans from coming. At 12 o'clock only about half the \$1 seats were full.

The Lineup

Boston	Brooklyn
Hooper, R. F.	Johnston R. F.
Hoblitzel 1 B.	Daubert 1 B.
Walker, C. F.	H. Myers C. P.
Lewis, L. F.	Wheat, L. F.
Gardner, 3B.	Mowrey 3B.
Scott S. S.	Olson S. S.
Thomas, C.	Miller, C.
Ruth, P.	Smith, C.
Janvrin, 2B.	Cutshaw, 2B.

Umpires

At Plate	Dineen
At Bases	Quigley
Left Field	O'Day
Right Field	Connelly

First Inning.

Johnson was first man called to bat to start things moving for Brooklyn and after getting two strikes and a ball went out on a fly to center field. Daubert followed the same route by a fly to right field. H. Myers then hit to right field for home run and judging from the fans at the Opera House there is considerable Brooklyn sentiment here. This is the first home run of the series and might be accounted for from the fact that Hooper fell in going after the fly. Wheat went out on a fly to right field. One run, one hit and no errors.

Second Inning.

Cutshaw for Brooklyn out third to first. Play was as follows: Hit to Ruth, hitting his glove and bounced to near third base from whence it was heaved to first. Mowrey out on line drive to second. Olson fanned. No runs, no hits and no errors.

Third Inning.

Miller goes out short to first. Smith Pitcher, doubles to right field but goes out at third trying to stretch it into a triple. Johnson singles to center field. Daubert called to bat but Johnson gets out trying to steal

second. No runs, two hits and no errors.

Scott up for Boston and hits to center field for triple. Thomas, catcher, for Boston, called to bat. Brooklyn infield comes in close. He goes out second to first. Scott held on third. Ruth goes out second to first. Scott scored. Cutshaw fumbled ball just for an instant. Hooper hits to Cutshaw who fumbles and Hooper is safe. Janvrin forces Hooper short to second. One run, one hit and one error.

Fourth Inning.

Daubert proves to be a good judge of balls and gets a walk. H. Myers, the home run hitter of Inning No. 1 is called to bat. Daubert forced short to second, second to first. Double play. Wheat goes out pitcher to first. No runs, no hits and no errors.

Walter goes out pitcher to first. Hoblitzel walks and Lewis called to bat. Double play. Third to second to first. Lewis hit into the double play. No runs, no hits and no errors.

Fifth Inning.

Cutshaw fans. Mowrey went out second to first and Olson follows with a good stiff single to left field. Miller out on fly to right field. No runs, one hit and no errors.

Gardner starts Boston's side by getting out on first ball pitched, second to first. Scott follows and goes out third to first. Thomas hits along left field line for a double. Olson interfered with Thomas and Umpire Quigley allows him to take third base. The hit goes for a triple. Ruth strikes out. No runs, one hit and no errors.

Sixth Inning.

Seventeen Brooklyn men and eighteen Boston men have faced pitchers in the first five innings. Smith goes out short to first. Johnson gets a walk and the mighty Daubert marches to the plate. Johnston gets out stealing second. Daubert hits liner to third and is caught at first. No runs, no hits and no errors.

Hooper up for Boston. Umpire Dineen puts the run on camera men on the field. Hooper out on fly to center field. Myers making wonder catch. Janvrin also went out on a fly to same part of lot. Walker went out easy second to first. No runs, no hits and no errors.

Seventh Inning.

Myers went out second to first. Janvrin fumbled but he got the ball to first in time to make the out. Wheat out second to first. Cutshaw out on pop fly to first base. No runs, no hits and no errors.

Hoblitzel up first and gets a walk. Lewis makes a sacrifice bunt and advances to second. Gardner goes out on pop fly to short. Scott, the hope of the fans, hits to third and Hoblitzel tagged out by Mowrey. No runs, no hits and no errors.

ARGUMENT COURT POSTPONED TILL NOVEMBER 6

Transcription of Notes On Dennerly Case Interfered With Reg. Course of Business

NO CRIMINAL CASES TODAY

The regular October term of Argument court scheduled for this week was postponed until the first week in November by Judge Bell this morning when in calling over the cases listed for argument at this time it was found that the attorneys interested in the cases ready were all away from home.

It being impossible for Court Reporter Gaulin to have transcribed the records in the cases tried at last term of civil court on account of being engaged in getting the testimony in the Dennerly murder trial ready for the attorneys for the defense to prepare their motion for a new trial, there was nothing left to do but order an adjournment, which was accordingly done.

We are not able to say at this time whether the world or our part of it is growing any better but as any evidence of some improvement along that line, we have only to add that this was the first Monday morning court in many moons when there was not a single criminal case up before Judge Bell for disposition.

CEDAR CHEST PRESENTED WOMAN'S EXCHANGE

Mrs. E. E. Jimeson has presented the Art Department of the Woman's Exchange with a handsome cedar chest. The consignors of the valuable and beautiful fancy work will be glad and relieved to know that every article can now be properly cared for and safely locked away when not on exhibition for sale.

The exchange is open every afternoon from 1 o'clock until 5, and is efficiently attended by Miss Laura Fulford.

GYM SCHEDULE AT Y. M. C. A.

The new gymnasium class schedule has been arranged and all class work is under way. There is every indication of a good season's activities. Special emphasis will be placed on the business men's group this season and a large class is expected. Drills and games that develop the muscles symmetrically have been carefully studied by the instructor and will be given in such a way that the men will enjoy it and give them vitality that will increase their efficiency greatly.

In a short time music will be introduced into the classes for marching and drills.

A strong effort will be made to give the members what they want and if a nucleus of a class not listed is found a new group will be formed.

All members are entitled to a physical examination upon entrance to the classes. This enables the instructor to have a personal touch with the members and to give special instruction where correction is needed.

The association is at all time open for inspection and the officers are glad to show you what the town has in the Y. M. C. A.

The schedule for gym classes follows:

Junior, 4-4, Tuesday; 9-10:15 Saturday.
High School (1 & 2), 9:30 a. m. Wednesday; 10:15 Saturday.
High school (2 & 3), 4-5 Monday; 4-5 Thursday.
Business Men, 5:15-6 Monday; 5:15-6 Wednesday; 5:15-6 Friday.
Intermediates, 7-8 Monday; 7-8 Thursday.
Junior Leaders, 5-6 Monday.
Seniors, 8-9 Tuesday; 8-9 Thursday.
*Formerly the Employed Boy's class.
Y. M. C. A. basket ball practice on Mondays at 8:15 to 9 p. m. and Thursdays 9 to 9:30.
High school basket ball practice on Wednesday at 4 to 5 p. m.

Novel Exhibit of Locust Street Lad Wins Him a Prize.

To show that the Peanut Trust could not create a panic in Clearfield County, Elmo E. Moyer, an eight year old lad of Locust street embarked in the business of peanut cultivation and planted his first planting on May 10th, 1916, and harvested them on October 4th, 1916. He took his crop to the Grampian Juvenile Fair and walked off with first prize. Simply shows it can be done. Go to it boys, the eight year old lad has shown the way.

MINE BUILDINGS FIRED SUNDAY LOSS \$5,000

Tipple and Buildings at Jaffa Mine, Near Brishin, Burned By Incendiarists

CLEARFIELD CITIZEN A LOSER

The tipple and other buildings at the Jaffa mine owned by Gould Bros. of Brishin and W. H. Patterson, Esq., of Clearfield, and located about three miles from Brishin, were totally destroyed by fire some time early Sunday morning. When discovered the flames had gained such headway that fighting the fire was out of the question and the entire plant was destroyed.

The fire was undoubtedly the work of an incendiary and a strenuous effort will be made through the state fire marshal's office to ferret out the incendiary. The loss is placed at about \$5,000.

Clearfield People in Lucky Auto Smash

Blowout Causes Car to Swerve Into Telegraph Pole.

A Clearfield automobile party consisting of Mr. and Mrs. Frank Shaw and Mr. and Mrs. A. M. Wright, Jr., and little son, were wrecked on the mountain road some eight miles this side of Tyrone Sunday. Mr. Shaw was driving and was bowling along the road at a pretty fair clip when a blow out occurred, the car swerved toward the side of the road and collided with a telephone pole.

Mr. Shaw had promptly shut the power off when the tire burst and as a result but little damage was done when the machine struck the pole and beyond a bad scare and severe shaking up the occupants were unhurt.

SUPPER AT WOMAN'S CLUB A SUCCESS

The supper held at the Woman's Club on Saturday evening was a success almost one hundred being served. Such a turn out should inspire the women to hold them weekly. An important meeting will be held Tuesday evening at which time they will discuss the holding of a supper weekly.

The Women's Club will hold an important meeting Tuesday evening at the club rooms on Main street at eight o'clock. A large number are expected to be present.

PUPILS READING COURSE RULES ANNOUNCED

Each Pupil Shall Read Ten Books Carefully. Pupils Will Be Assisted In Selection

AWARDS WILL BE DIPLOMAS

The schools teach the children to read. The community should furnish the materials that encourage and interest them in the habit of reading and cultivate their taste for really good books. This is as important a matter as the supervision of their companionships. For the influence of a good or a bad book is very subtle and lasting influence which may do lifelong good or harm. This is a subject in which the whole community has a manifest self interest. We enlist the aid of the teachers in stimulating their pupils and arousing an interest in reading. Activities of this supplement and correlate with the work of the class room. The following rules governing the Reading Course of Clearfield County are suggested. 1. All pupils attending the public schools of Clearfield County may be included. This does not include High School pupils.

2. Each pupil should read ten books carefully.

3. Four of these books must be chosen from the following list: Longfellow's Evangeline or Courtship of Miss Standish, Whittier's Snow Bound, Gulliver's Travels, Stories of English History, Arabian Nights, Any one of Miss Allcott's books, any one of James Fenimore Cooper's books, Uncle Tom's Cabin, David Harum, Huckleberry Finn, Black Beauty, Boy and Girls of Garden City by Dawson, The Man Without a Country by Hale, Robinson Crusoe, Old Stories of the East by Baldwin.

4. The pupil with the assistance of the teacher may select the other six books.

5. It is not necessary that all of the books need be read during one school year but a pupil may submit the names of books that have been read before.

6. The name of the pupil and the name of the books that have been read must be sent to the office of the County Superintendent sometime during the school term.

7. If the books are of such a character that the County Superintendent can approve them the pupil will then be required to write four brief statements about each book, giving the name of the author, the chief character in the story and two other important facts.

8. When these rules have been complied with in a satisfactory manner a certificate will be issued to the pupil stating that the holder has the honor of having completed the Reading Course for Clearfield County.

IS HERE FROM OREGON

Alfred Hinkle, a former Clearfield resident, who has more than made good on the Pacific coast, where he has been located the past ten years, is visiting old friends and relatives in this section. He is now located at Detroit, Oregon, where he is engaged in the lumber business. He says that W. A. Hoover, another old Clearfielder who also lives in Detroit, and who had been reported critically ill some time ago, has regained his usual good health and is also getting along nicely.

The Hospital Bridge White Club will meet at the residence of Mrs. P. F. Weaver Wednesday afternoon October 11, at two o'clock. Please notify hostess.

Political Pot Gets Hot, Boils Over And Emits Fumes

W. E. Tobias, Candidate For Congress Takes Ex-Senator Dimeling To Task, Alleging Double Dealing

LOCAL DEMOCRATS MIX THINGS BADLY

A one act farce comedy in which local prominent Democrats were the actors was staged on Second street about 10:30 this morning when Candidate for Congress W. E. Tobias took to task Ex-Senator George M. Dimeling, whom he alleges is managing the Democratic end of Charles Rowland's campaign for congress in Clearfield county.

The spectators gathered from Mr. Tobias' remarks that Dimeling had been sort of double-crossing him or in other words, playing both ends against the middle in his remarks derogatory to Tobias and his aspirations for congress.

According to the information brought to the candidate by three or four friends Saturday, Dimeling, as the busy disseminator of political information, told a member of the Catholic faith that Tobias was awfully sore on the "Micks" as a class and for that reason he and all "Micks" should vote for Rowland. The "Mick" seen on Saturday evidently did not believe the story and straightway told Tobias what Dimeling had said. This much for "Exhibit A."

No sooner had this tale been unfolded into the ear of the candidate than "Exhibit B" in the shape of three friends who were not "Micks" made reports in rapid sequence of the

A Well Known DuBois Woman Dies

Mrs. Chas. L. Hay Has Many Friends in Clearfield.

This community will learn with regret of the sudden death of Mrs. Grace Hay, widow of Charles L. Hay, who died suddenly at Ridgeway on April 23rd of this year. Mrs. Hay has been ill for several months with cancer which caused her death. She has a great many friends in Clearfield and adjoining towns. It will be remembered that Mr. Hay met death under tragic circumstances. He dropped dead while entering a church at Ridgeway. The funeral will be held tomorrow from the home of H. A. Vosburg of DuBois, private at the convenience of the family. Mrs. Hay leaves two sons Kenneth and Gordon.

MARRIED.

Harry F. Smith, of Conduley, and Elizabeth C. Teats, of Hyde City, were united in marriage by Squire James A. Milligan Saturday afternoon last. They will make their home at Huntley, Pa.

CAMPAIGN SCANDAL.

Passing under the banner at the Court House corner we are led to remark that Wilson and Marshall are "hitting the high lights these days."

WHAT NEXT?

Everybody concedes the fact that politics is very quiet. In vain do the Democrats try to inject life into their campaign by pointing to the good intentions of President Wilson but nobody stops to listen. Hughes is on his third campaign trip and while he meets with a good reception and enthusiastic audience, both sides of the fence concede that things are awful quiet. It remains for local Democrats to make the omelet and see how it smells. Politicians have long been able to tell a story that fits the particular voter but news travels these days and it won't work.

CURTAIN WENT UP THIS MORNING.

News columns grow fat on scandalous happenings and political lore so we are deeply indebted to the gentleman who has started something in local Democratic politics. It is to be regretted that the "something" referred to is the religious issue but since the controversy is between two members of the same party it will not last long. Only a few evenings ago, a good Democrat soundly berated us for taking part in what he termed "dirty Republican politics." We may have our opinion of a man. We may think him spineless and say so. We may not agree with a man in his course of action and describe it with a large juicy adjective such as "vacillating" but forbid the time that we shall call attention to the candidate's religious affiliations, his opinions on religion or attempt to prejudice people against him simply because he worships his God according to the dictates of his own conscience and in accordance with his rights and privileges under the Constitution of the United States.

Today's Geographic Study of The Great European War Zone

"The city of Mytilene, where the revolutionary movement against Greece's non-participation in the war closely followed the outbreak in the chief towns of Crete, has been a part of the Greek nation an even shorter time than the latter cities. As the capital of the island of Lesbos (also called Mytilene) it cast off Turkish rule at the end of the Second Balkan war (1913), and came once more under the sway of its ancient mistress, Athens," says today's war geography bulletin of the National Geographic Society.

"Originally Mytilene is supposed to have occupied a small island off the southeastern shore of the larger island of the same name, but as its double harbor soon made it the most important city of the Aeolians on the Asiatic coast, the population and commerce outgrew its island bounds, and overflowed to the larger territory. A mole or isthmus was constructed connecting the original seaport with the main island, and today the smaller islet no longer exists as such but is a promontory, with the shores of Asia Minor less than 20 miles to the east.

"The modern city is built in the form of an amphitheater around a hill which is crowned with the ruins of a fort dating back to the time of the Genoese. The population is estimated at 50,000 and the outstanding architectural feature of the place is a Greek College which is attended by boys from the entire Aegean coast.

"Mytilene has written its name large on the pages of ancient history. Its Golden Age preceded the era of Pericles in Athens by more than a hundred years. The two outstanding names in its heyday of power and culture were Pittacus, the statesman, and Sappho, the poetess. The former, whose wise and beneficent reign of ten years earned for him immortality as one of the Seven Sages of Greece, at the age of 30 fled, with the

aid of the brothers of the poet Alcæus, overthrown the tyrant of the island. After slaying the Athenian commander Phryon in single combat he was entrusted with despotic power by the Mytileneans. It was his life work to maintain a balance of power between the nobles and the commons. Pittacus is famous for two of his favorite sayings: 'It is hard to be good' and 'Knows when to act.'

"The career of the great Mytilenean poetess has been so widely advertised through the ages of dramas and novels of a notorious nature that it is only necessary to recall the fact that recent research has tended to brighten to some extent a sadly tarnished reputation. The story of Sappho's leap into the sea from the lofty Leucadian promontory, because of her unrequited love for Phaon, has never been proved. While no one will contend that the gifted Lesbian's morals were impeccable, it is highly possible that posterity has visited upon her head the sins of some of the more licentious pupils of her great poetic school. In any event, her position as a poetess is unassailable. The ancients accorded her a place alongside Homer, designating her as 'the Poetess' him as 'the poet'. Writers who followed her called her the 'tenth Muse' and 'the miracle'. The appellation 'the beautiful' which not infrequently occurs, is said to have referred to her verses only, for personally she was small, dark and unprepossessing.

"Shortly after the outbreak of the Peloponnesian war in the fifth century, B. C., the ruling nobles of Mytilene forced the city to side with Sparta against the Athenians to whom they were under an agreement to furnish a naval contingent. For this revolt the city suffered bitterly, and the story of the punishment meted out to the rebels after a long siege is one of the most dramatic in Hellenic history."

SING SING WARDEN ADDRESSES CONGRESS

Buffalo, N. Y., Oct. 9.—(By United Press.)—"Segregation, Self-Government and State Control" by Warden Derrick of Sing Sing prison are one of the chief addresses of today's sessions of the American Prison association congress here. Derrick took up the problem of keeping young offenders whose habits of crime are not formed away from the influence of incorrigible criminals.

Others who spoke in the morning and early afternoon were: Rev. W. M. Buzza, chaplain of the county workhouse at Hoboken, N. J.; M. Z. White, warden of the West Virginia penitentiary; Charles H. Parker, University of California; Dr. Paul E. Bowers, physician of the Illinois State prison; and John P. Lynam, warden of the Maryland penitentiary. W. H. Davis, chairman of the bureau of prisons, Philippine Islands, will be the chief speaker at the session this evening.

HAVE ROSY CHEEKS AND FEEL FRESH AS A DAISY—TRY THIS!

Says glass of hot water with phosphate before breakfast washes out poisons

To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try inside-bathing every morning for one week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, also those whose skin is sallow and complexion pallid, are assured that one week of inside bathing will have them both looking and feeling better in every way.

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets, you will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system. If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-noon feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results. Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition. 10c and 25c per box. All druggists.

MEAT CAUSE OF KIDNEY TROUBLE

Take Salts to Flush Kidneys if Back Hurts or Bladder Bothers.

If you must eat your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

HIGH PRICE OF STATIONERY.

Atlanta, Ga., Oct. 9.—Writing paper and stationery of all kinds, whether in the form of a billet doux or a tailor's bill, is going to cost more in the near future, according to views expressed by leading men of the trade gathered in Atlanta for the annual convention of the National Association of Stationers and Manufacturers. How to solve the trade problems incident to the high cost of material is one of the principal subjects to be threshed out by the convention. Prominent manufacturers and representatives of the wholesale trade in all parts of the country are in attendance.

CURWENSVILLE NEWS

WANTED—A stout, active and reliable boy to deliver the Progress each evening on the South Side route.

Master Robert Wolf had the misfortune on Saturday to cut a severe gash in one of his feet on a piece of glass.

Archie Davidson and family motored to Phillipsburg yesterday afternoon as the guests of friends for 1 hour.

At Mrs. M. J. Carpenter who is visiting at the Park house, more than a week, left Saturday afternoon to their home in Clarksburg.

Nuts are coming into Curwensville market. They are of large size and are reported to be rather plentiful this year. They sold on the street Saturday at ten cents per quart.

The Osceola football fellows did not show up on Saturday hence the Curwensville squad as well as a number of enthusiasts and rooters were disappointed so far as seeing a game contest was concerned.

Raymond Young opened up his sanitary barber shop in the Sweeney block Saturday morning. Everything is new and up-to-date, and as "Boots" is an expert workman no doubt will command an even share of tonsorial trade.

Messrs. Clarence Ammerman and Roy Fullerton are now located in Akron, Ohio. The former is employed in the chemistry department, while the latter is in the shipping department of the Goodyear rubber tire company.

It was a noticeable fact on Sunday afternoon that only about one automobile in every four sounded the horn signal before crossing the diamond at the intersection of Main and Filbert streets. There is a huge sign on the pole and motorists should observe what it says when they reach this point.

Mr. and Mrs. Cornely and two children came in from Nanty-glo on Saturday and stopped with Mrs. J. M. Carlisle. Sunday the party with Mrs. Carlisle went to Bell's mills, Jefferson county, which was Mrs. Carlisle's childhood home, for the purpose of visiting the old home and relatives who yet reside there.

An acrobat bicycle fellow was an attraction for the town's juvenile element on Saturday evening. Some of the stunts performed were really wonderfully skillful and required considerable nerve and headwork to carry them out successfully. His entertainment lasted over a period of an hour, after which he passed the hat.

Messrs. N. H. W. J. and R. H. McCloskey, residing at Woolridge, near Lock Haven, accompanied by Mrs. Erbeck, motored from their homes Saturday to Curwensville for a day's stay with their brother, Oliver McCloskey, over on the South Side. It was their first visit to the town and they were well pleased with the town's cleanliness and beauty.

The fire alarm whistle drew the attention of a number of people Saturday afternoon in the direction of the rampian road. The woods on the right hand side of the road above the house was set on fire by some sparks, and, as the wind was blowing rather smartly at the time, someone sent in an alarm. The firemen re-

sponded with truck and hose, but when they arrived they found that their presence was unnecessary and came back home.

The constantly falling leaves accumulate fast and are being gathered together and burned along the curb. There is an ordinance on the borough statute books prohibiting the burning of paper, etc., on the streets of the town, yet it is done every day in the year. But what it is to be done with the leaves? There seems to be no other way of getting rid of them except the mode now in use. As long as no harm results, we would say go to it, the same old way, and get rid of them as you are doing. It will be much better for the town's sanitary condition than to let them lie and rot until springtime, and then let the borough take care of what is left of debris. Some of the borough ordinances are better violated than enforced, as the town has entirely too many ordinances on the books that were never intended to be looked after any farther than just the passing and printing of them.

Merritt Caldwell informed the Progress man Saturday night that he had just moved into town and wanted to live at peace with his neighbors and the whole world, he would pay the bill of the pipe, laying and digging of that drain in front of his property himself, rather than to have a controversy over the same. Yet he would like to know why others on the same street had the same work done in front of their properties, and some of them were on the council at the time, were not asked to pay a cent. Truly the way of doing some things are past finding out. The present councilmen are in no ways to blame for their action, because they were but following out a precedent established by former board of councils. That the burress was within his rights in vetoing the drain action, there is no question. The problem will work itself out in time to the satisfaction of everybody concerned no doubt.

Curwensville merchants first real experience with a "National Pay-up Week" ended with Saturday evening. That the six days ended with good results goes without question, and many only wish that the day would come oftener in the year. Of course everybody did not pay up their indebtedness in full but they did their best they were able to do under the circumstances and that was all that was asked of them. A man is very often considered to be dishonest because he does not liquidate his indebtedness at the proper time but last week Curwensville merchants discovered that this theory will not always hold water, because men came to them and explained just why they were unable to pay up and asked leniency and more time was readily granted to them when the facts in their cases were satisfactorily explained. That very few men who had outstanding accounts with the merchants did not respond in some way or other with the result that a better feeling exists today between the merchants and debtors than ever, because now they understand one another better and matters were arranged without a great deal of hard feeling on either side. As is stated above, it was Curwensville's first experience with a pay-up-week but the Progress readers can rest assured that it will not be the last. As one man stated to the writer Saturday night, "that I am square on the books now, and it will be a smart man that will ever catch me being otherwise."

England Studies Disbanding of Army

Already Making Preparations For Taking Care of Soldiers.

By Hal O'Flaherty

(United Press Staff Correspondent)

London, Sept. 24.—(By Mail)—Although peace is not yet in sight, England is already taking steps toward a slow and gradual demobilization of her great army. An inkling of what would happen should any great number of fighting men be suddenly thrown ashore on England's coast has been gleaned from the pranks of restless convalescents. It is stated on good authority that arrangements have been made to house the new army in northern France for some time after peace has been declared, allowing only small bodies of men to cross the channel at a time.

As the demobilized soldiers cross to England, they will be disposed most systematically. In one of the largest club buildings in London, commanded for the express purpose, there is being prepared a card index of every soldier, showing his history, qualifications and business training. When the army disbands, England expects to know exactly what human resources the possesses and she is determined to use these toward rebuilding her world trade.

In conjunction with the card indexing of the soldiers, some of the Empire's greatest organizers are making a survey factories, wholesale houses, shipyards and all businesses requiring labor. The number of men needed for each will be accurately charted and when the time comes, the ex-soldier will be offered immediate employment.

How well England is anticipating the future can only be conjectured, for very few persons know the extent of the plans. But a good indication of how determined the effort is, was shown in the commanding of the national Liberal club building.

The announcement of this act on the part of the government came like a bolt from a clear sky to the club members. They protested indignantly until the president of the club explained the reason; that England wanted their premises to care for the future of the men who were facing death in France. The protestors left the building after a patriotic demonstration. The traditions of years were to be thrown overboard to make room for the salvaging of England's trade.

Not only London but every city of the empire will become a great clearing house for labor. The appalling cost of warfare is to be discussed, in so far as possible, by utilizing fully the while and revitalized manhood which war produces. If Germany showed greater efficiency in preparing for war, Teutonic incrimination will be taxed to the limit to curb the Anglo-saxon in preparing for peace.

NATURE LOVERS STRIP TREES OF "ADS"

Boston, Mass., Oct. 9.—Nature lovers in Massachusetts mobilized today for an organized campaign on advertisements on trees bordering the public highways. An army of Boy Scouts and volunteer workers, organized by the Massachusetts Forestry Association, with the aid of automobile clubs and women's clubs, will spend the entire week in stripping tin, wood, cloth and paper advertisements from shade trees. The campaign has been designated at "tear down week." Those engaged in the crusade assert that the advertisements aside from shocking a traveler's aesthetic sense, seriously damage the trees.

DISCIPLES HAVE PROSPEROUS YEAR

Des Moines, Ia., Oct. 9.—The annual convention of the Christian church or Disciples of Christ, assembled in this city today for a week's session. In point of attendance, the convention is one of the largest religious gatherings of the year. The reports to be presented to the convention show that the past year has been made a most prosperous one for the denomination. The Missionary societies have made gratifying gains and the Men and Millions movement has gone forward with rapid strides.

AMERICAN FLIER IS KILLED

KIFFIN Y. ROCKWELL

Kiffin Y. Rockwell of Atlanta was shot to death the other day at the Verdun front by a German in a Taube; while the American circled around in his armored battle plane.

Rockwell is the second American flier to be killed in action. Three months ago Corporal Victor Chapman of New York, also a member of the Franco-American Corps, was killed at Verdun in a battle with German aeroplanes. Soon after being appointed sergeant Rockwell saved Chapman during a fight with German airmen near Verdun.

WILL ATTEND SUPREME COURT HEARING

Prothonotary John H. Moore will leave tomorrow for Philadelphia, where he has been subpoenaed to appear before the Supreme Court of the State and testify in the case of the Chestnut Hill Coal company vs the Pennsylvania Railroad Company.

This case was tried in the Clearfield County Courts in 1906, the coal company suing for damages on account of unfair distribution of cars. The jury awarded treble damages the verdict totalling \$45,000. Jack Minds, son of James H. Minds, of Ramsey, is one of the attorneys in the case. Prothonotary Moore was summoned to produce the Clearfield county records in the case and under the law must present them in person.

A KING WITHOUT A THRONE.

Paris, Oct. 7.—Of the three kings who have been living in exile in France since the war drove them from their thrones the saddest and most pathetic figure of all is the venerable King of Montenegro, who today passes the seventy-fifth anniversary of his birth, surrounded by the devoted members of his family and a handful of faithful followers who are sharing his exile.

Albert of Belgium and Peter of Serbia may safely look forward to an eventual restoration of their dominions, with possible large accessions of territory, but for Nicholas of Montenegro the return of peace will have nothing in store, no matter which group of powers is victorious in the great war. Should the Central Powers win, Montenegro would be either incorporated with Austria, or else it would be made to serve as a province of the reconstructed king of Albania. If, on the other hand, final victory rests with the Allies, as now seems inevitable, Montenegro, which is peopled in the main by Serbia, will be assigned to King Peter to compensate him for the heroic struggle of the Serbians against the Austro-Germans and their Bulgarian allies.

UNITED PRESS NOT IDENTIFIED WITH BIOGRAPHERS

New York, Oct. 9.—(By United Press)—Numerous inquiries have been made of the United Press Associations as to whether it has any connection with a concern located on South Clark street Chicago, which in its circulars, offers a book of biographies with a sketch of the purchaser for \$10, and which repeatedly uses the line "United Press Service."

The officials of the United Press today stated they knew nothing about the Clark street concern and that the United Press is not responsible for any representations or acts of those sending out these circulars.

LAUNDERERS WANT SUBMARINES TO COME

St. Louis, Mo., Oct. 9.—(By United Press)—"What shall we do, what shall we do?" is the wail of the members of the Launderer's National association which convened here today for a three day session. The wail is directed at the tendency of the colors dyers are using nowadays to run all over when fancy duds hit the tub. The launderers want a few more submarines to dock quick if they are to retain the good will of their patrons.

SINS OF MEN

Special at the Globe Theatre Today

Wilhelm Schumann, an old German philosopher, envies the success of a popular novelist, author of "Three Days." Schumann finally finds a market for the book. The publisher, Scribner, is urged by his daughter Margaret to publish the book written on his strange philosophy by the old German, who is accompanied to the publishing house by his daughter Elsa.

On his way home Schumann rescues a child, which later is named Hope, from her drunken father and the old man's wife Gretchen takes the child into their home as a servant. Their son Bertie returns from college and Christmas is celebrated by a reunion of the Schumanns and the Muller family.

George Marvin is the son-in-law of Schumann, the publisher. He becomes infatuated with the doctrine of "Myself" and also with the daughter of his author Elsa. They meet by stealth. Bertie Schumann also has been affected by his father's book and sees in the child Hope his first conquest. Gretchen finds that Elsa's bed has not been slept in at the same moment that Marvin's little daughter discovers that her father had not been home for the night. Gretchen threatens to tell Marvin's wife of his affair with her daughter Elsa, and the havoc of the doctrine "Myself" is spread to all the families connected with its author or its publication.

Wilhelm returns one day to find his ward Hope in the arms of his son, Bertie. The philosopher begins to realize what his false doctrine has done to his own family. He orders Hope from his home, and she returns to her home, to find her formerly drunken father a reformed man. But Hope's father learns of what has happened to his daughter through the affect of "Myself."

Hope's father suddenly appears in the Schumann home, and shoots and kills Wilhelm, the author of "Myself." But with the author's death did not end the life of the new philosophy. Sales of the book increased translated in many tongues, bringing suffering and sin where truth and old-fashioned faith had been.

THE HEARST INTERNATIONAL NEWS

This great current event picture which will be shown at the Opera House, tomorrow evening presents the first views of the arrival of the U merchant boat at its home port of Bremen, showing the reception it received as it steamed into the harbor and the celebration attending the landing of its captain and crew. Some remarkable views of the activities of the Russians on the battle front of

Europe are also shown. The U. S. troops on the border are shown in their daily activities, the latest things in fashions, burial of the Zeppelin raid victims and many other interesting happenings of the world make this picture one of the most interesting on the week's program. The big feature production will be Florence Turner in Thos. Harding's great "Crowd."

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray streaked, and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage and Sulphur recipe at home, though is troublesome. An easier way is to get a 50-cent bottle of Wyeth's Sage and Sulphur compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.

Henry Miller Writes of Border Doings

Expects To Be Returned Home In a Few Weeks.

El Paso, Texas,
Sept. 2, 1916.

Dear Dad:

Your letter received and was glad to hear from you again. Well I am feeling pretty good after the hike we had. Some hike, believe me, and I would not sell my experience for a good bit. This country is not all a desert by a good deal, for on the other side of the divide or pass, they call it St. Augustine Pass, there lies a beautiful valley, where there are some fine farms. It is all done by irrigation. The water is taken from the Rio Grande and carried for miles and miles wherever there is any farming done. They mostly raise Bermuda onions, watermelons and also all kinds of fruits.

As we were moving along the border, 12,000 of us, we could see Mexicans on the opposite side of the Rio Grande, and I tell you we had the Greasers guessing as what or where we were headed to.

Now to tell you of my trip of the hike. The first day we made about 15 miles, and camped on the desert. Our dog tents for shelter. The second day bright and early we were on the move and marched or rode till 9 p. m. and camped in the desert again. The third day we were on the march again at daylight and made the pass at 9 a. m. and we were three hours going 3 miles so you can see it was no picnic going through there and at 6 p. m. we reached the ranch house where we camped for the night. The next morning we started back for Camp Stewart again and reached here at 3 p. m., tired and foot sore. Well to tell the truth we only washed our faces and hands once in 4 days, and the poor horses did not get any water for 36 hours and there was quite a few fell by the wayside so nearly gone that they had to be shot to put them out of their misery. My horse stood the trip pretty good except that he lost about 100 pounds in weight and a little stiffened but he is O. K. now.

I saw some of the Pennsylvania Boys going home the other day, and I think we will be homeward soon to. Will now close with love to all.

First Home Run of Series Knocked In 14 Inning Game

H. Myers Does the Trick for Brooklyn in the First Inning; Nobody on Bases And So It Counts for But One Run

BOSTON WINS IN FOURTEENTH, 2 TO 1

Boston, Oct. 9.—Fears gave way to hope this morning when after an all night rain the sun appeared in the east, and the weather is expected to clear up for the afternoon game between the Red Sox and the Dodgers.

The second game of the world series opened up at Boston this afternoon with fair weather and betting 10 to 4 on the Red Sox on the series and 5 to 3 on today's game.

A little rain fell between one and two o'clock which deferred the fans from coming. At 12 o'clock only about half the \$1 seats were full.

The Lineup

Boston	Brooklyn
Hooper, R. F.	Johnston R. F.
Hoblitzel 1 B.	Daubert 1 B.
Walker, C. F.	H. Myers C. F.
Lewis, L. F.	Wheat, L. F.
Gardner, 3B.	Mowrey 3B.
Scott S. S.	Olson S. S.
Thomas, C.	Miller, C.
Ruth, P.	Smith, C.
Janviri, 2B.	Cutshaw, 2B.

Umpires

At Plate	Dineen
At Bases	Quigley
Left Field	O'Day
Right Field	Connelly

First Inning.

Johnson was first man called to bat to start things moving for Brooklyn and after getting two strikes and a ball went out on a fly to center field. Daubert followed the same route by a fly to right field. H. Myers then hit to right field for home run and judging from the fans at the Opera House there is considerable Brooklyn sentiment here. This is the first home run of the series and might be accounted for from the fact that Hooper fell in going after the fly. Wheat went out on a fly to right field. One run, one hit and no errors.

Second Inning.

Cutshaw for Brooklyn out third to first. Play was as follows: Hit to Ruth, hitting his glove and bounced to near third base from whence it was heaved to first. Mowrey out on line drive to second. Olson fanned. No runs, no hits and no errors.

Third Inning.

Miller goes out short to first. Smith Pitcher, doubles to right field but goes out at third trying to stretch it into a triple. Johnson singles to center field. Daubert called to bat but Johnson gets out trying to steal

second. No runs, two hits and no errors.

Scott up for Boston and hits to center field for triple. Thomas, catcher, for Boston, called to bat. Brooklyn infield comes in close. He goes out second to first. Scott held on third. Ruth goes out second to first. Scott scored. Cutshaw fumbled ball just for an instant. Hooper hits to Cutshaw who fumbles and Hooper is safe. Janviri forces Hooper short to second. One run, one hit and one error.

Fourth Inning.

Daubert proves to be a good judge of balls and gets a walk. H. Myers, the home run hitter of Inning No. 1 is called to bat. Daubert forced short to second, second to first. Double play. Wheat goes out pitcher to first. No runs, no hits and no errors.

Walter goes out pitcher to first. Hoblitzel walks and Lewis called to bat. Double play. Third to second to first. Lewis hit into the double play. No runs, no hits and no errors.

Fifth Inning.

Cutshaw fans. Mowrey went out second to first and Olson follows with a good stiff single to left field. Miller out on fly to right field. No runs, one hit and no errors.

Gardner starts Boston's side by getting out on first ball pitched, second to first. Scott follows and goes out third to first. Thomas hits along left field line for a double. Olson interfered with Thomas and Umpire Quigley allows him to take third base. The hit goes for a triple. Ruth strikes out. No runs, one hit and no errors.

Sixth Inning.

Seventeen Brooklyn men and eighteen Boston men have faced pitchers in the first five innings. Smith goes out short to first. Johnston gets a walk and the mighty Daubert marches to the plate. Johnston gets out stealing second. Daubert hits liner to third and is caught at first. No runs, no hits and no errors.

Hooper up for Boston. Umpire Dineen puts the run on camera men on the field. Hooper out on fly to center field. Myers making wonder catch. Janviri also went out on a fly to same part of lot. Walker went out easy second to first. No runs, no hits and no errors.

Seventh Inning.

Myers went out second to first. Janviri fumbled but he got the ball to first in time to make the out. Wheat out second to first. Cutshaw out on pop fly to first base. No runs, no hits and no errors.

Hoblitzel up first and gets a walk. Lewis makes a sacrifice bunt and advances to second. Gardner goes out on pop fly to short. Scott, the hope of the fans, hits to third and Hoblitzel tagged out by Mowrey. No runs, no hits and no errors.

ARGUMENT COURT POSTPONED TILL NOVEMBER 6

Transcription of Notes On Den-nery Case Interfered With Reg. Course of Business

NO CRIMINAL CASES TODAY

The regular October term of Argument court scheduled for this week was postponed until the first week in November by Judge Bell this morning when in calling over the cases listed for argument at this time it was found that the attorneys interested in the cases ready were all away from home.

It being impossible for Court Reporter Gaulin to have transcribed the records in the cases tried at last term of civil court on account of being engaged in getting the testimony in the Denney murder trial ready for the attorneys for the defense to prepare their motion for a new trial, there was nothing left to do but order an adjournment, which was accordingly done.

We are not able to say at this time whether the world or our part of it is growing any better but as any evidence of some improvement along that line, we have only to add that this was the first Monday morning court in many moons when there was not a single criminal case up before Judge Bell for disposition.

CEDAR CHEST PRESENTED WOMAN'S EXCHANGE

Mrs. E. E. Jameson has presented the Art Department of the Woman's Exchange with a handsome cedar chest. The consignors of the valuable and beautiful fancy work will be glad and relieved to know that every article can now be properly cared for and safely locked away when not on exhibition for sale.

The exchange is open every afternoon from 1 o'clock until 5, and is efficiently attended by Miss Laura Fulford.

GYM SCHEDULE AT Y. M. C. A.

The new gymnasium class schedule has been arranged and all class work is under way. There is every indication of a good season's activities.

Special emphasis will be placed on the business men's group this season and a large class is expected. Drills and games that develop the muscles symmetrically have been carefully studied by the instructor and will be given in such a way that the men will enjoy it and give them vitality that will increase their efficiency greatly.

In a short time music will be introduced into the classes for marching and drills.

A strong effort will be made to give the members what they want and if a nucleus of a class not listed is found a new group will be formed.

All members are entitled to a physical examination upon entrance to the classes. This enables the instructor to have a personal touch with the members and to give special instruction where correction is needed.

The association is at all time open for inspection and the officers are glad to show you what the town has in the Y. M. C. A.

The schedule for gym classes follows:

Juniors, 4-4, Tuesday; 9-10:15 Saturday.

High School (1 & 2), 9:30 a. m. Wednesday; 10:15 Saturday.

High school (2 & 3), 4-5 Monday; 4-5 Thursday.

Business Men, 5:15-6 Monday; 5:15-6 Wednesday; 5:15-6 Friday.

Intermediates, 7-8 Monday; 7-8 Thursday.

Junior Leaders, 5-6 Monday.

Seniors, 8-9 Tuesday; 8-9 Thursday.

*Formerly the Employed Boy's class.

Y. M. C. A. basket ball practice on Mondays at 8:15 to 9 p. m. and Thursdays 9 to 9:30.

High school basket ball practice on Wednesday at 4 to 5 p. m.

MINE BUILDINGS FIRED SUNDAY LOSS \$5,000

Tipple and Buildings at Jaffa Mine, Near Brishin, Burned By Incendiaries

CLEARFIELD CITIZEN A LOSER

The tipple and other buildings at the Jaffa mine owned by Gould Bros. of Brishin and W. H. Patterson, Esq., of Clearfield, and located about three miles from Brishin, were totally destroyed by fire some time early Sunday morning. When discovered the flames had gained such headway that fighting the fire was out of the question and the entire plant was destroyed.

The fire was undoubtedly the work of an incendiary and a strenuous effort will be made through the state fire marshal's office to ferret out the incendiary. The loss is placed at about \$5,000.

Blowout Causes Car to Swerve Into Telegraph Pole.

A Clearfield automobile party consisting of Mr. and Mrs. Frank Shaw and Mr. and Mrs. A. M. Wright, Jr., and little son, were wrecked on the mountain road some eight miles this side of Tyrone Sunday. Mr. Shaw was driving and was bowling along the road at a pretty fair clip when a blow out occurred, the car swerved toward the side of the road and collided with a telephone pole.

Mr. Shaw had promptly shut the power off when the tire burst and as a result but little damage was done when the machine struck the pole and beyond a bad scare and severe shaking up the occupants were unhurt.

SUPPER AT WOMAN'S CLUB A SUCCESS

The supper held at the Woman's Club on Saturday evening was a success almost one hundred being served. Such a turn out should inspire the women to hold them weekly. An important meeting will be held Tuesday evening at which time they will discuss the holding of a supper weekly.

The Women's Club will hold an important meeting Tuesday evening at the club rooms on Main street at eight o'clock. A large number are expected to be present.

PUPILS READING COURSE RULES ANNOUNCED

Each Pupil Shall Read Ten Books Carefully. Pupils Will Be Assisted In Selection

AWARDS WILL BE DIPLOMAS

The schools teach the children to read. The community should furnish the materials that encourage and interest them in the habit of reading and cultivate their taste for really good books. This is as important a matter as the supervision of their companionships. For the influence of a good or a bad book is very subtle and lasting influence which may do lifelong good or harm. This is a subject in which the whole community has a manifest self interest. We enlist the aid of the teachers in stimulating their pupils and arousing an interest in reading. Activities of this supplement and correlate with the work of the class room. The following rules governing the Reading Course of Clearfield County are suggested. 1. All pupils attending the public schools of Clearfield County may be included. This does not include High School pupils.

2. Each pupil should read ten books carefully. 3. Four of these books must be chosen from the following list: Longfellow's Evangeline or Courtship of Miss Standish, Whittier's Snow Bound, Gulliver's Travels, Stories of English History, Arabian Nights, Any one of Miss Allcott's books, any one of James Fenimore Cooper's books, Uncle Tom's Cabin, David Harum, Huckleberry Finn, Black Beauty, Boy and Girls of Garden City by Dawson, The Man Without a Country by Hale, Robinson Crusoe, Old Stories of the East by Baldwin.

4. The pupil with the assistance of the teacher may select the other six books. 5. It is not necessary that all of the books need be read during one school year but a pupil may submit the names of books that have been read before. 6. The name of the pupil and the name of the books that have been read must be sent to the office of the County Superintendent sometime during the school term.

7. If the books are of such a character that the County Superintendent can approve them the pupil will then be required to write four brief statements about each book, giving the name of the author, the chief character in the story and two other important facts.

8. When these rules have been complied with in a satisfactory manner a certificate will be issued to the pupil stating that the holder has the honor of having completed the Reading Course for Clearfield County.

IS HERE FROM OREGON

Alfred Hinkle, a former Clearfield resident, who has more than made good on the Pacific coast, where he has been located the past ten years, is visiting old friends and relatives in this section. He is now located at Detroit, Oregon, where he is engaged in the lumber business. He says that W. A. Hoover, another old Clearfielder who also lives in Detroit, and who had been reported critically ill some time ago, has regained his usual good health and is also getting along nicely.

Political Pot Gets Hot, Boils Over And Emits Fumes

W. E. Tobias, Candidate For Congress Takes Ex-Senator Dimeling To Task, Alleging Double Dealing

LOCAL DEMOCRATS MIX THINGS BADLY

A one act farce comedy in which local prominent Democrats were the actors was staged on Second street about 10:30 this morning when Candidate for Congress W. E. Tobias took to task Ex-Senator George M. Dimeling, whom he alleges is managing the Democratic end of Charles Rowland's campaign for congress in Clearfield county.

The spectators gathered from Mr. Tobias' remarks that Dimeling had been sort of double-crossing him or in other words, playing both ends against the middle in his remarks derogatory to Tobias and his aspirations for congress.

According to the information brought to the candidate by three or four friends Saturday, Dimeling, as the busy disseminator of political information, told a member of the Catholic faith that Tobias was awfully sore on the "Micks" as a class and for that reason he and all "Micks" should vote for Rowland. The "Mick" seen on Saturday evidently did not believe the story and straightway told Tobias what Dimeling had said. This much for "Exhibit A."

No sooner had this tale been unfolded into the ear of the candidate than "Exhibit B" in the shape of three friends who were not "Micks" made reports in rapid sequence of the incident served to notify the teetotal onlookers and audience that the campaign in Clearfield county had not only opened up but that our Democratic brethren are already getting real "hot up" over things political.

A Well Known DuBois Woman Dies

Mrs. Chas. L. Hay Has Many Friends in Clearfield.

This community will learn with regret of the sudden death of Mrs. Grace Hay, widow of Charles L. Hay, who died suddenly at Ridgeway on April 23rd of this year. Mrs. Hay has been ill for several months with cancer which caused her death. She has a great many friends in Clearfield and adjoining towns. It will be remembered that Mr. Hay met death under tragic circumstances. He dropped dead while entering a church at Ridgeway. The funeral will be held tomorrow from the home of H. A. Vosburg of DuBois, private at the convenience of the family. Mrs. Hay leaves two sons Kenneth and Gordon.

MARRIED.

Harry F. Smith, of Conduley, and Elizabeth C. Teats, of Hyde City, were united in marriage by Squire James A. Milligan Saturday afternoon last. They will make their home at Huntley, Pa.

German Submarine Obeys Law Says Secretary of Navy Daniels

Asbury Park, N. J., Oct. 9.—(By United Press).—German submarines acting in steamer lane off Nantucket acted according to the rules of international law, Secretary of Navy Daniels informed President Wilson today in a preliminary report. Daniels will make a formal report later in the day. The president will make no statement until all data is in his hands regarding the action of the German U-boat

Daniels said that from early advice no loss of life had resulted, and that the submarines gave full notice to the vessel before approaching. All the passengers and crews have been rescued with the exception of the crew of the kingston which was sunk 70 miles out from Nantucket. He also stated that several United States destroyers were in that vicinity.

CAMPAIGN SCANDAL.

Passing under the banner at the Court House corner
we are led to remark that Wilson and Marshall are
"hitting the high lights these days."

WHAT NEXT?

Everybody concedes the fact that politics is very
quiet. In vain do the Democrats try to inject life into
their campaign by pointing to the good intentions of
President Wilson but nobody stops to listen. Hughes is
on his third campaign trip and while he meets with a
good reception and enthusiastic audience, both sides of
the fence concede that things are awful quiet. It re-
mains for local Democrats to make the omelet and see
how it smells. Politicians have long been able to tell a
story that fits the particular voter but news travels these
days and it won't work.

CURTAIN WENT UP THIS MORNING.

News columns grow fat on scandalous happenings
and political lore so we are deeply indebted to the gentle-
man who has started something in local Democratic pol-
itics. It is to be regretted that the "something" refer-
red to is the religious issue but since the controversy is
between two members of the same party it will not last
long. Only a few evenings ago, a good Democrat sound-
ly berated us for taking part in what he termed "dirty
Republican politics." We may have our opinion of a
man. We may think him spineless and say so. We may
not agree with a man in his course of action and describe
it with a large juicy adjective such as "vacillating" but
forbid the time that we shall call attention to the candi-
date's religious affiliations, his opinions on religion or at-
tempt to prejudice people against him simply because he
worships his God according to the dictates of his own
conscience and in accordance with his rights and privi-
leges under the Constitution of the United States.

Today's Geographic Study of
The Great European War Zone

"The city of Mytilene, where the
revolutionary movement against
Greece's non-participation in the war
closely followed the outbreak in the
chief towns of Crete, has been a part
of the Greek nation an even shorter
time than the latter cities. As the
capital of the island of Lesbos (also
called Mytilene) it cast off Turkish
rule at the end of the Second Balkan
war (1913), and came once more un-
der the sway of its ancient mistress,
Athens," says today's war geography
bulletin of the National Geographic
Society.

"Originally Mytilene is supposed to
have occupied a small island off the
southeastern shore of the larger is-
land of the same name, but as its
double harbor soon made it the most
important city of the Aeolians on the
Asiatic coast, the population and
commerce outgrew its island bounds,
and overflowed to the larger terri-
tory. A mole or isthmus was con-
structed connecting the original set-
tlement with the main island, and today
the smaller islet no longer exists as
such but is a promontory, with the
shores of Asia Minor less than 20
miles to the east.

"The modern city is built in the
form of an amphitheater around a
hill which is crowned with the ruins
of a fort dating back to the time of
the Genoese. The population is
estimated at 50,000 and the outstand-
ing architectural feature of the place
is a Greek College which is attended
by boys from the entire Aegean coast.

"Mytilene has written its name
large on the pages of ancient history.
Its Golden Age preceded the era of
Pericles in Athens by more than a
hundred years. The two outstand-
ing names in its heyday of power and
culture were Pittacus, the statesman,
and Sappho, the poetess. The for-
mer, whose wise and beneficent reign
of ten years earned for him immor-
tality as one of the Seven Sages of
Greece, at the age of 30 fled, with the

aid of the brothers of the poet Al-
cæus, overthrown the tyrant of the
island. After slaying the Athenian
commander Phryon in single combat
he was entrusted with despotic power
by the Mytileneans. It was his life
work to maintain a balance of power
between the nobles and the commons.
Pittacus is famous for two of his fa-
vorite sayings: 'It is hard to be good'
and 'Knows when to act.'

"The career of the great Mytilene-
an poetess has been so widely ad-
vertised through the ages of dramas
and novels of a notorious nature that
it is only necessary to recall the fact
that recent research has tended to
brighten to some extent a sadly tarn-
ished reputation. The story of Sappho's
leap into the sea from the lofty
Leucadian promontory, because of
her unrequited love for Phaon, has
never been proved. While no one
will contend that the gifted Lesbian's
morals were impeccable, it is highly
possible that posterity has visited
upon her head the sins of some of
the more licentious pupils of her
great poetic school. In any event,
her position as a poetess is unassail-
able. The ancients accorded her a
place alongside Homer, designating
her as 'the Poetess' him as 'the poet'.
Writers who followed her called her
the 'tenth Muse' and 'the miracle'.
The appellation 'the beautiful' which
not infrequently occurs, is said to
have referred to her verses only, for
personally she was small, dark and
unprepossessing.

"Shortly after the outbreak of the
Peloponnesian war in the fifth cen-
tury, B. C., the ruling nobles of My-
tilene forced the city to side with
Sparta against the Athenians to
whom they were under an agreement
to furnish a naval contingent. For
this revolt the city suffered bitterly,
and the story of the punishment
meted out to the rebels after a long
siege is one of the most dramatic in
Hellenic history."

BALLOT FOR NEW YORK
TROOPS ON THE BORDER

New York state troops on the Mexi-
can border will use a ballot eight
feet four inches long on election day.
It is the longest ballot ever used by
New York voters.

In this picture is shown Francis M.
Hugo, secretary of state of New
York, who will send the ballots to the
men on the border in aerobals
suspended on the border in carloads.

SING SING WARDEN
ADDRESSES CONGRESS

Buffalo, N. Y., Oct. 9.—(By United
Press.)—"Segregation, Self-Govern-
ment and State Control" by Warden
Derrick of Sing Sing prison
are one of the chief addresses of to-
day's sessions of the American Prison
association congress here. Derrick
took up the problem of keeping
young offenders whose habits of
crime are not formed away from the
influence of incorrigible criminals.

Others who spoke in the morning
and early afternoon were: Rev. W.
M. Buzza, chaplain of the county
workhouse at Hoboken, N. J.; M. Z.
White, warden of the West Virginia
penitentiary; Charles H. Parker, Uni-
versity of California; Dr. Paul E.
Bowers, physician of the Illinois
State prison; and John P. Leonard,
warden of the Maryland penitentiary.
W. H. Davis, chairman of the board
of prisoners, Philippine Islands, will
be the chief speaker at the ses-
sion this evening.

HAVE ROSY CHEEKS
AND FEEL FRESH AS
A DAISY—TRY THIS!

Says glass of hot water with
phosphate before breakfast
washes out poisons

To see the tinge of healthy bloom
in your face, to see your skin get
clearer and clearer, to wake up with-
out a headache, backache, coated
tongue or a nasty breath, in fact to
feel your best, day in and day out,
just try inside-bathing every morn-
ing for one week.

Before breakfast each day, drink a
glass of real hot water with a tea-
spoonful of limestone phosphate in it
as a harmless means of washing from
the stomach, liver, kidneys and bow-
els the previous day's indigestible
waste, sour bile and toxins; thus
cleansing, sweetening and purifying
the entire alimentary canal before
putting more food into the stomach.
The action of hot water and limestone
phosphate on an empty stomach is
wonderfully invigorating. It cleans
out all the sour fermentations, gases
and acidity and gives one a splendid
appetite for breakfast.

A quarter pound of limestone phos-
phate will cost very little at the
drug store but is sufficient to demon-
strate that just as soap and hot wa-
ter cleanses, sweetens and freshens
the skin, so hot water and limestone
phosphate act on the blood and inter-
nal organs. Those who are subject
to constipation, bilious attacks, acid
stomach, rheumatic twinges, also
those whose skin is sallow and com-
plexion pallid, are assured that one
week of inside bathing will have
them both looking and feeling better
in every way.

ROUSING WELCOME
FOR MR. GERARD

New York, Oct. 9.—When James
W. Gerard, American ambassador to
Berlin, arrives in New York for a
brief vacation tomorrow he is to be

to second. Lewis out and Hoblitzel
on second. McNally batting for
Gardner. McNally running for Ho-
blitzel. Gaylor singles to left field
and McNally scores.

Both teams have played wonderful
base ball and this game has been re-
plete with thrills from start to finish.
There has been enough inside baseball
to satisfy the most ardent fan. The
record attendance of today's game will
be a high-water mark in baseball his-
tory. The Brooklyn fans will have to
go some if they reach the attendance
of 41,273 which are the official figures
for today's game. The fight for the
highest honor is that are possible in the
baseball world will continue in Brook-
lyn tomorrow.

Playing great ball. Lots of blood.
Attendance is 41,273. The game to-
morrow will be at Brooklyn.

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes
—Most Women Can Have
Says Dr. Edwards, a Well-Known
Ohio Physician

Dr. F. M. Edwards for 17 years
treated scores of women for liver and
bowel ailments. During these years he
gave to his patients a prescription made
of a few well-known vegetable ingredi-
ents mixed with olive oil, naming them
Dr. Edwards' Olive Tablets, you will
know them by their olive color.

These tablets are wonder-workers on
the liver and bowels, which cause a nor-
mal action, carrying off the waste and
poisonous matter in one's system.

If you have a pale face, sallow look,
drift eyes, pimples, coated tongue, head-
aches, a listless, no-noon feeling, all out
of sorts, inactive bowels, you take one
of Dr. Edwards' Olive Tablets nightly
for a time and note the pleasing results.
Thousands of women as well as men
take Dr. Edwards' Olive Tablets—the
successful substitute for calomel—now
and then just to keep in the pink of con-
dition. 10c and 25c per box. All druggists

MEAT CAUSE OF
KIDNEY TROUBLE

Take Salts to Flush Kidneys if
Back Hurts or Bladder
Bothers.

If you must eat your meat every
day, eat it, but flush your kidneys with
salts occasionally, says a noted au-
thority who tells us that meat forms
uric acid which almost paralyzes the
kidneys in their efforts to expel it
from the blood. They become slug-
gish and weaken, then you suffer
with a dull misery in the kidney re-
gion, sharp pains in the back or sick
headache, dizziness, your stomach
sours, tongue is coated and when the
weather is bad you have rheumatic
twinges. The urine gets cloudy, full
of sediment, the channels often get
sore and irritated, obliging you to
seek relief two or three times during
the night.

To neutralize these irritating acids,
to cleanse the kidneys and flush off
the body's urinous waste get four
ounces of Jad Salts from any phar-
macy here; take a tablespoonful in a
glass of water before breakfast for a
few days and your kidneys will then
act fine. This famous salts is made
from the acid of grapes and lemon
juice, combined with lithia, and has
been used for generations to flush and
stimulate sluggish kidneys, also to
neutralize the acids in urine, so it no
longer irritates, thus ending bladder
weakness.

Jad Salts is inexpensive; cannot in-
jure, and makes a delightful effervescent
lithia water drink.

HIGH PRICE OF STATIONERY.

Atlanta, Ga., Oct. 9.—Writing pa-
per and stationery of all kinds, whet-
her in the form of a billet doux or a
tailor's bill, is going to cost more in
the near future, according to views
expressed by leading men of the
trade gathered in Atlanta for the an-
nual convention of the National As-
sociation of Stationers and Manufac-
turers. How to solve the trade prob-
lems incident to the high cost of ma-
terial is one of the principal subjects
to be threshed out by the convention.
Prominent manufacturers and repre-
sentatives of the wholesale trade in
all parts of the country are in atten-
dance.

CURWENSVILLE NEWS

WANTED—A stout, active and reliable boy to deliver the Progress each evening on the South Side route.

Master Robert Wolf had the misfortune on Saturday to cut a severe gash in one of his feet on a piece of glass.

Archie Davidson and family motored to Phillipsburg yesterday afternoon and were the guests of friends for 1 hour.

At Mrs. M. J. Carpenter who is visiting at the Park house, more than a week, left Saturday morning to return to their home in Clarksburg.

Nuts are coming into Curwensville market. They are of large size and are reported to be rather plentiful this year. They sold on the street Saturday at ten cents per quart.

The Osceola football fellows did not show up on Saturday hence the Curwensville squad as well as a number of enthusiasts and rooters were disappointed so far as seeing a game contest was concerned.

Raymond Young opened up his sanitary barber shop in the Sweeney block Saturday morning. Everything is new and up-to-date, and as "Boots" is an expert workman no doubt will command an even share of tonsorial trade.

Messrs. Clarence Ammerman and Roy Fullerton are now located in Akron, Ohio. The former is employed in the chemistry department, while the latter is in the shipping department of the Goodyear rubber tire company.

It was a noticeable fact on Sunday afternoon that only about one automobile in every four sounded the horn signal before crossing the diamond at the intersection of Main and Filbert streets. There is a huge sign on the pole and motorists should observe what it says when they reach this point.

Mr. and Mrs. Cornelly and two children came in from Nanty-glo on Saturday and stopped with Mrs. J. M. Carlisle. Sunday the party with Mrs. Carlisle went to Bell's mills, Jefferson county, which was Mrs. Carlisle's childhood home, for the purpose of visiting the old home and relatives who yet reside there.

An acrobat bicycle fellow was an attraction for the town's juvenile element on Saturday evening. Some of the stunts performed were really wonderfully skillful and required considerable nerve and headwork to carry them out successfully. His entertainment lasted over a period of an hour, after which he passed the hat.

Messrs. N. H. W. J. and R. H. McCloskey, residing at Woolridge, near Lock Haven, accompanied by Mrs. Erbeck, motored from their homes Saturday to Curwensville for a day's stay with their brother, Oliver McCloskey, over on the South Side. It was their first visit to the town and they were well pleased with the town's cleanliness and beauty.

The fire alarm whistle drew the attention of a number of people Saturday afternoon in the direction of the rampian road. The woods on the right hand side of the road above the house was set on fire by some sparks, and, as the wind was blowing rather smartly at the time, someone sent in an alarm. The firemen re-

sponded with truck and hose, but when they arrived they found that their presence was unnecessary and came back home.

The constantly falling leaves accumulate fast and are being gathered together and burned along the curb. There is an ordinance on the borough statute books prohibiting the burning of paper, etc., on the streets of the town, yet it is done every day in the year. But what it is to be done with the leaves? There seems to be no other way of getting rid of them except the mode now in use. As long as no harm results, we would say go to it, the same old way, and get rid of them as you are doing. It will be much better for the town's sanitary condition than to let them lie and rot until springtime, and then let the borough take care of what is left of debris. Some of the borough ordinances are better violated than enforced, as the town has entirely too many ordinances on the books that were never intended to be looked after any farther than just the passing and printing of them.

Merritt Caldwell informed the Progress man Saturday night that he had just moved into town and wanted to live at peace with his neighbors and the whole world, he would pay the bill of the pipe, laying and digging of that drain in front of his property himself, rather than to have a controversy over the same. Yet he would like to know why others on the same street had the same work done in front of their properties, and some of them were on the council at the time, were not asked to pay a cent. Truly the way of doing some things are past finding out. The present councilmen are in no ways to blame for their action, because they were but following out a precedent established by former board of councils. That the burress was within his rights in vetoing the drain action, there is no question. The problem will work itself out in time to the satisfaction of everybody concerned no doubt.

Curwensville merchants first real experience with a "National Pay-up Week" ended with Saturday evening. That the six days ended with good results goes without question, and many only wish that the day would come oftener in the year. Of course everybody did not pay up their indebtedness in full but they did their best they were able to do under the circumstances and that was all that was asked of them. A man is very often considered to be dishonest because he does not liquidate his indebtedness at the proper time but last week Curwensville merchants discovered that this theory will not always hold water, because men came to them and explained just why they were unable to pay up and asked leniency and more time was readily granted to them when the facts in their cases were satisfactorily explained. That very few men who had outstanding accounts with the merchants did not respond in some way or other with the result that a better feeling exists today between the merchants and debtors than ever, because now they understand one another better and matters were arranged without a great deal of hard feeling on either side. As is stated above, it was Curwensville's first experience with a pay-up-week, but the Progress readers can rest assured that it will not be the last. As one man stated to the writer Saturday night, "that I am square on the books now, and it will be a smart man that will ever catch me being otherwise."

England Studies Disbanding of Army

Already Making Preparations For Taking Care of Soldiers.

By Hal O'Flaherty
(United Press Staff Correspondent)
London, Sept. 24.—(By Mail)—Although peace is not yet in sight, England is already taking steps toward a slow and gradual demobilization of her great army. An inkling of what would happen should any great number of fighting men be suddenly thrown ashore on England's coast has been gleaned from the pranks of restless convalescents. It is stated on good authority that arrangements have been made to house the new army in northern France for some time after peace has been declared, allowing only small bodies of men to cross the channel at a time.

As the demobilized soldiers cross to England, they will be disposed most systematically. In one of the largest club buildings in London, commanded for the express purpose, there is being prepared a card index of every soldier, showing his history, qualifications and business training. When the army disbands, England expects to know exactly what human resources the possesses and she is determined to use these toward rebuilding her world trade.

In conjunction with the card indexing of the soldiers, some of the Empire's greatest organizers are making a survey factories, wholesale houses, shipyards and all businesses requiring labor. The number of men needed for each will be accurately charted and when the time comes, the ex-soldier will be offered immediate employment.

How well England is anticipating the future can only be conjectured, for very few persons know the extent of the plans. But a good indication of how determined the effort is, was shown in the commanding of the national Liberal club building. The announcement of this act on the part of the government came like a bolt from a clear sky to the club members. They protested indignantly until the president of the club explained the reason; that England wanted their premises to care for the future of the men who were facing death in France. The protestors left the building after a patriotic demonstration. The traditions of years were to be thrown overboard to make room for the salvaging of England's trade.

Not only London but every city of the empire will become a great clearing house for labor. The appalling cost of warfare is to be discussed, in so far as possible, by utilizing fully the while and revitalized manhood which war produces. If Germany showed greater efficiency in preparing for war, Teutonic incrimination will be taxed to the limit to curb the Anglo-saxon in preparing for peace.

NATURE LOVERS STRIP TREES OF "ADS"

Boston, Mass., Oct. 9.—Nature lovers in Massachusetts mobilized today for an organized campaign on advertisements on trees bordering the public highways. An army of Boy Scouts and volunteer workers, organized by the Massachusetts Forestry Association, with the aid of automobile clubs and women's clubs, will spend the entire week in stripping tin, wood, cloth and paper advertisements from shade trees. The campaign has been designated at "tear down week." Those engaged in the crusade assert that the advertisements aside from shocking a traveler's aesthetic sense, seriously damage the trees.

DISCIPLES HAVE PROSPEROUS YEAR

Des Moines, Ia., Oct. 9.—The annual convention of the Christian church or Disciples of Christ, assembled in this city today for a week's session. In point of attendance, the convention is one of the largest religious gatherings of the year. The reports to be presented to the convention show that the past year has been made a most prosperous one for the denomination. The Missionary societies have made gratifying gains and the Men and Millions movement has gone forward with rapid strides.

AMERICAN FLIER IS KILLED

Kiffin Y. Rockwell of Atlanta was shot to death the other day at the Verdun front by a German in a Taube; while the American circled around in his armored battle plane.

Rockwell is the second American flier to be killed in action. Three months ago Corporal Victor Chapman of New York, also a member of the Franco-American Corps, was killed at Verdun in a battle with German aeroplanes. Soon after being appointed sergeant Rockwell saved Chapman during a fight with German airmen near Verdun.

WILL ATTEND SUPREME COURT HEARING

Prothonotary John H. Moore will leave tomorrow for Philadelphia, where he has been subpoenaed to appear before the Supreme Court of the State and testify in the case of the Chestnut Hill Coal company vs the Pennsylvania Railroad Company.

This case was tried in the Clearfield County Courts in 1906, the coal company suing for damages on account of unfair distribution of cars. The jury awarded treble damages the verdict totalling \$45,000. Jack Minds, son of James H. Minds, of Ramsey, is one of the attorneys in the case. Prothonotary Moore was summoned to produce the Clearfield county records in the case and under the law must present them in person.

A KING WITHOUT A THRONE.

Paris, Oct. 7.—Of the three kings who have been living in exile in France since the war drove them from their thrones the saddest and most pathetic figure of all is the venerable King of Montenegro, who today passes the seventy-fifth anniversary of his birth, surrounded by the devoted members of his family and a handful of faithful followers who are sharing his exile.

Albert of Belgium and Peter of Serbia may safely look forward to an eventual restoration of their dominions, with possible large accessions of territory, but for Nicholas of Montenegro the return of peace will have nothing in store, no matter which group of powers is victorious in the great war. Should the Central Powers win, Montenegro would be either incorporated with Austria, or else it would be made to serve as a province of the reconstructed king of Albania. If, on the other hand, final victory rests with the Allies, as now seems inevitable, Montenegro, which is peopled in the main by Serbia, will be assigned to King Peter to compensate him for the heroic struggle of the Serbians against the Austro-Germans and their Bulgarian allies.

UNITED PRESS NOT IDENTIFIED WITH BIOGRAPHERS

New York, Oct. 9.—(By United Press)—Numerous inquiries have been made of the United Press Associations as to whether it has any connection with a concern located on South Clark street Chicago, which in its circulars, offers a book of biographies with a sketch of the purchaser for \$10, and which repeatedly uses the line "United Press Service."

The officials of the United Press today stated they knew nothing about the Clark street concern and that the United Press is not responsible for any representations or acts of those sending out these circulars.

LAUNDERERS WANT SUBMARINES TO COME

St. Louis, Mo., Oct. 9.—(By United Press)—"What shall we do, what shall we do?" is the wail of the members of the Launderer's National association which convened here today for a three day session.

The wail is directed at the tendency of the colors dyers are using nowadays to run all over when fancy duds hit the tub. The launderers want a few more submarines to dock quick if they are to retain the good will of their patrons.

MILEAGE

That's another point where Atlantic Gasoline shows strong. Besides the zip and the snap that make motors reel off landscape like tape, it's got the stretch that looms up big on the speedometer. Phoney fuels lose out on the mileage test—they can't stand the gaff. There is one gasoline that, despite market conditions, maintains the uniform boiling-point that made it famous—Atlantic. CHARTER NOTICE

Notice is hereby given that an application will be made to the governor of Pennsylvania on the twenty-third day of October, 1916 by Warren Partridge, W. O. Hoover and Jas. H. Lytle under the act of assembly entitled "An act to provide for the incorporation and regulation of certain corporations," approved April 29, 1874, and the supplements thereto, for the charter of an intended corporation to be called the Newburg Light, Heat & Power company, the character and object of which is manufacturing and supplying light, heat and power by electricity, to the public in the Borough of Newburg, Clearfield county, Pennsylvania, and to such persons, partnerships and corporations residing therein or adjacent thereto, as may desire the same, and for these purposes to have, possess and enjoy all the rights, benefits and privileges of said act of assembly and supplements thereto.

SINS OF MEN

Special at the Globe Theatre Today

Wilhelm Schumann, an old German philosopher, envies the success of a popular novelist, author of "Three Days." Schumann finally finds a market for the book. The publisher, Scribner, is urged by his daughter Margaret to publish the book written on his strange philosophy by the old German, who is accompanied to the publishing house by his daughter Elsa.

On his way home Schumann rescues a child, which later is named Hope, from her drunken father and the old man's wife Gretchen takes the child into their home as a servant. Their son Bertie returns from college and Christmas is celebrated by a reunion of the Schumanns and the Muller family.

George Marvin is the son-in-law of Schumann, the publisher. He becomes infatuated with the doctrine of "Myself" and also with the daughter of his author Elsa. They meet by stealth. Bertie Schumann also has been affected by his father's book and sees in the child Hope his first conquest. Gretchen finds that Elsa's bed has not been slept in at the same moment that Marvin's little daughter discovers that her father had not been home for the night. Gretchen threatens to tell Marvin's wife of his affair with her daughter Elsa, and the havoc of the doctrine "Myself" is spread to all the families connected with its author or its publication.

Wilhelm returns one day to find his ward Hope in the arms of his son, Bertie. The philosopher begins to realize what his false doctrine has done to his own family. He orders Hope from his home, and she returns to her home, to find her formerly drunken father a reformed man. But Hope's father learns of what has happened to his daughter through the affect of "Myself."

Hope's father suddenly appears in the Schumann home, and shoots and kills Wilhelm, the author of "Myself." But with the author's death did not end the life of the new philosophy. Sales of the book increased translated in many tongues, bringing suffering and sin where truth and old-fashioned faith had been.

THE HEARST INTERNATIONAL NEWS

This great current event picture which will be shown at the Opera House, tomorrow evening presents the first views of the arrival of the U merchant boat at its home port of Bremen, showing the reception it received as it steamed into the harbor and the celebration attending the landing of its captain and crew. Some remarkable views of the activities of the Russians on the battle front of

Europe are also shown. The U. S. troops on the border are shown in their daily activities, the latest things in fashions, burial of the Zeppelin raid victims and many other interesting happenings of the world make this picture one of the most interesting on the week's program. The big feature production will be Florence Turner in Thos. Harding's great "Crowd."

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray streaked, and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage and Sulphur recipe at home, though is troublesome. An easier way is to get a 50-cent bottle of Wyeth's Sage and Sulphur compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.

Henry Miller Writes of Border Doings

Expects To Be Returned Home in a Few Weeks.

El Paso, Texas,
Sept. 2, 1916.

Dear Dad:

Your letter received and was glad to hear from you again. Well I am feeling pretty good after the hike we had. Some hike, believe me, and I would not sell my experience for a good bit. This country is not all a desert by a good deal, for on the other side of the divide or pass, they call it St. Augustine Pass, there lies a beautiful valley, where there are some fine farms. It is all done by irrigation. The water is taken from the Rio Grande and carried for miles and miles wherever there is any farming done. They mostly raise Bermuda onions, watermelons and also all kinds of fruits.

As we were moving along the border, 12,000 of us, we could see Mexicans on the opposite side of the Rio Grande, and I tell you we had the Greasers guessing as what or where we were headed to.

Now to tell you of my trip of the hike. The first day we made about 15 miles, and camped on the desert. Our dog tents for shelter. The second day bright and early we were on the move and marched or rode till 9 p. m. and camped in the desert again. The third day we were on the march again at daylight and made the pass at 9 a. m. and we were three hours going 3 miles so you can see it was no picnic going through there and at 6 p. m. we reached the ranch house where we camped for the night. The next morning we started back for Camp Stewart again and reached here at 3 p. m., tired and foot sore. Well to tell the truth we only washed our faces and hands once in 4 days, and the poor horses did not get any water for 36 hours and there was quite a few fell by the wayside so nearly gone that they had to be shot to put them out of their misery. My horse stood the trip pretty good except that he lost about 100 pounds in weight and a little stiffened but he is O. K. now.

I saw some of the Pennsylvania Boys going home the other day, and I think we will be homeward soon to. Will now close with love to all.
